SCARLET FEVER FATAL TO JIMMIE O'CONNOR

Death, no respector of age, chose this time fair haired merry little Jimmie O'Connor who passed away Wednesday afternoon at 5 o'clock from scarlet fever complications.

Jimmie, whose real name was Ormonde Clyde O'Connor, was born in Globe, Arizona, July 18 ,1923. He has however spent most of his life in Nevada City and attended the Washington Grammar School where he was enrolled in the second grade. His bright and sunny disposition made him loved by pupils and teachers alike. He was also a favorite around town.

He is survived by his mother, Mrs. Leona O'Connor of this city, his father Clyde O'Connor of Arizona, a sister Betty and his grandparents, Mr. and Mrs. Charles B. O'Connor of this city.

When the seriousness of his illness was realized a telegram was sent to the lads father who was in Arizona and he reached here at 4 o'clock Thursday, too late to see his son alive.

The funeral serviles which will be strictly private will be held this morning (Friday) from Holmes Funeral home with Father O'Reilly officiating. Interment will be in the Catholic cemetery.

TWO ATTEMPTS MADE TO BURN HOTEL

Two attempts were made Saturday night of last week to destroy the St. Charles Hotel at Downieville by fire. P. C. Nelson who has been working on the highway is said to have been arrested and charged with attempted arson. Preliminary examination was set for tomorrow. No reason was ascertained for the act.

The first fire was discovered at about ten o'clock, when Robert Morris who occupied a bedroom on the third floor of the hotel building thought he smelled smoke. He got up and donning some of his clothing came down stairs, and noticed smoke coming out of the transom over the door leading into room No. 9, occupied by Harry Wilson, telephone employee.

Near midnight, Nightwatchman Frank Cook, on his rounds, discovered a fire in the wash room on the ground floor of the hotel. Here a determined effort to burn the building had been made, the fire having been started beneath the floor of the washroom so that the draft would draw the flames up the studding and carry the fire upward.

A general alarm was turned in to cope with this fire. Many of the citizens were at the dance in the hall, and soon a big crowd gathered about the hotel. The flames were extinguished after some difficulty.

AFTERNOON TRAIN TO LEAVE MUCH EARLIER

Postmaster P. G. Scadden announced that owing to the change in departures of trains, there will be corresponding changes in the closing mails for these trains.

The mail for the early morning train closes at 9:00 o'clock of the night previous, as heretofore. Mail for the train leaving at 9:30 a. m. will close at 9:00 a. m. This mail will arrive at San Francisco about 3:300 p. m.

The departure of the afternoon train at 3:05 p. m. advances the closing of mail for this train to 2:30 p. m. The evening mail is due to arrive at 6:35 under the new schedule.

EASTERN STAR HONORS DEPARTING MEMBER

Mrs. Annie Buckner, who has held the office of Esther in the Eastern Star for the past several months, was given a farewell reception on Tuesday evening at the regular meeting of the order. Mrs Buckner has endeared herself to the members during her membership and it is with regret that they bid her farewell. She was presented with an emblem of the order in the shape of a pin.

After the business of the evening was disposed of games were enjoyed and later light refreshments were served.

LEGISLATIVE GOSSIP AT STATE CAPITAL

Senator Tubbs of San francisco, Tuesday Moved to bring his bill repealing the Eighteen Amendment out of Committee, but he received very little support in his move. As was a question of breaking down our whole law enforced setup. Were it a question of making it possible for the people to express their opinions, the whole question would asume a diffrent aspect. The vote was overwhlemingly in favor of upholding the action of the Committee. It was the Committee who heard the arguments. Members of the Senate to the tune of 33 to 5 voted to sustain the section of the Committee.

The Conservation Committee of the Senate, of which the writer is a member, voted unanimously to allow the Senate to sit as a Committee of the Whole to hear the arguments on the water program that has been advocated by the Joint Legislative Water Committee. We believe that the matter was of such importance that the Senate as a whole should sit and pass their judgement on this question. A specitl session has been threatned on the question. If it is througly debated on the floor of the Senate, there will be little excuss for calling a special session should the amendment fail to pass. The people of the mountain districts have a very great interest in this whole question and we believe that all phases should be publicaly aired. It will be heard some time this week and action must be taken in the Senate, before the end of this week's session. All bills of origination in the Senate, must be heard before Friday, or they die a painless death, in "status que". One of the constitutional provisions of legislative being that bills cannot be acted upon in the house of origination seven days prior to the adjournment of the Legislature.

The oil bills for the conservation of our state oil supply have been debated now in the Senate for at least a week. It is amusing to some of us who represent the people to "listen in" on the arguments. The representatives of the "major oil companies" argue that conservation will stabilize the industry, prevent waste and save them from ruinous competition. On the other hand, representatives of the "Independent Oil Companies" argue that the conservation measure prevents competition and will put them out of business. We always come back to the same query: "What happens to the people?" Of course, that always brings a laugh because unfortunately for our legislative system, most bills are not argued on their merits or demerit, or from the standpoint of the people. It has been of paramount interest, however, to us and we still have the interest of all the people at heart and have voted upon this principle.

EORTY-NINERS TO MEET IN MARYSVILLE TODAY

The "Trails of '49 Committee of the Sacramento Region Citizens Council will hold their annual meeting at the Hotel Marysville today.

This will be in connection with the Gold Rush celebration being Sponsored by Marysville and Yuba City at that time, according to a statement made today by H. C. Ingram, president of the Sacramento Council.

The "Trails of '49 Committee" is now engaged in an active advertising program featuring all of the twenty-one counties in the Sacramento Region. Display advertisements have already appeared in the newspapers of the large Pacific Coast cities and this program will be continued throught the year.

President Ingram states that without doubt this will result in bringing to the Sacramento Region large numbers of tourists who would other wise spend their vecations in Pacific Coast centers.

Nevada City is on the Trails of'49 and will be greately benefited by the advertising.

AUTO ACCIDENT

Mrs. James Stewart was hurt in an auto accident at Auburn Wednesday. She suffered several broken ribs and a spraned ankle. She is the wife of James D. Stewart of Auburn, well known mining man.

NEVADA CITY TO HAVE MODERN SHOW HOUSE IN NEAR FUTURE

A crew of men are busy making extensive improvements on the Nevada City theatre in preparation for the installation of a modern talking machine. The work will take a month or six weeks and when completed the theatre will be modern in every respect. Everything possible is being done to add to the comfort and enjoyment of the prospective patrons.

The projection room has been moved from the lower floor to the gallery where a fireproof operating box is being constructed. The very latest R. C. A. Photophone will be installed for the purpose of projecting the pictures and producing the sound effects. This is the finest machine on the market and the managers are sparing nothing in order to give the people of Nevada City and vicinity the best.

The space left vacant by the moving of the projection room will be filled with seats thus enlarging the seating capacity. The old benches are being removed from the gallery and seats installed. These benches are sixty years old and are made of cedar lumber which is still in excellent condition.

When completed the theatre accostics will be absolutely perfect. The interior of the building is being covered with celotex and balsam wool the most modern of sound proof material. An engineer from the R. C. A. will arrive in a few days to make a survey of the building and make a report on the changes necessary to put the building in a perfect condition as far as sound effects are concerned.

The entire building is being painted and decorated. The floor will be covered with a heavy carpet.

The arch of the stage has been attractively decorated in a mosaic effect. The new screen which has been purchased will be in several feet giving the effect of being set in a large beautiful frame.

The foyer of the building will be enlarged and a number of improvements made there. It will also be redecorated.

It is planned to run the theatre full time as long as the patronage warrants doing so. A line of the very best of the new pictures has been contracted for.

Messers. Tamblyn and Calanan are to be congratulated on their effort to give Nevada City an up-to-date theater and theater goers of this city are anxiously awaiting the opening date.

OPTION GRANTED ON CRUSADER PROPERTY

New gold mining deal of importance to the Mother Lode of California was consuminated this week when Walter P. Frick and Seymor Hill granted a lease and purchase option on the Crusader mine, near Diamond Springs, to the Smuggling Mining Company. Ltd. The option calls for a total purchase price of $37,00 with payments over a period of three years, according to announcement today by C. N. Miller of San Francisco., president of the Smuggler Company.

The Crusader mine is a short distance from the famous Church and Union mines, the latter credited with a gross production of $9,000,000. The main shaft has been sunk to a depth of 100 feet where a cross cut was driven to the vein which, it is reported, shows a width of eight feet of good milling ore with a streak of highgrade ribbon quartz on the footwall. Miller said that a crew of eight men will be employed to sink the shaft to the 400 foot level .

Concerning develoment prospects Frisk said: "I acquired my interest in the Crusader mine many years ago after a cereful examination of the property and the Mother Lode mines and have the greatest faith that developments will place this property in the ranks of other great gold properties that have made the Mother Lode famous."

BURGLARS ATTEMPT TO ENTER LOCAL MOME

An attempt was made Wednesday evening by two supposed burglars to enter the Foote Home on Main street through a window. They were frightened away by Night Watchman Jeffery before gaining entrance.

There have been a number of cases of petty thievery or attempted house breaking in the past few weeks.

IDAHO-MARYLAND UNCOVERS VEIN

After clearing a geological malformation between the 1,400 and 1,500 levels, the Idaho-Maryland upraise development is reported to have a ledge of increased width and strength with values somewhat improved over the lower levels. The significance of the favorable situation at that point, according to authoritative statements, is that the ore body in all probability extends to or near the surface.

Due to the property being an old one with immense workings in the Eureka, Idaho and Maryland holdings, the development is upwards from the 1,900 level, where the ledge extension was discovered and drifted on for approximately 1,000 feet.

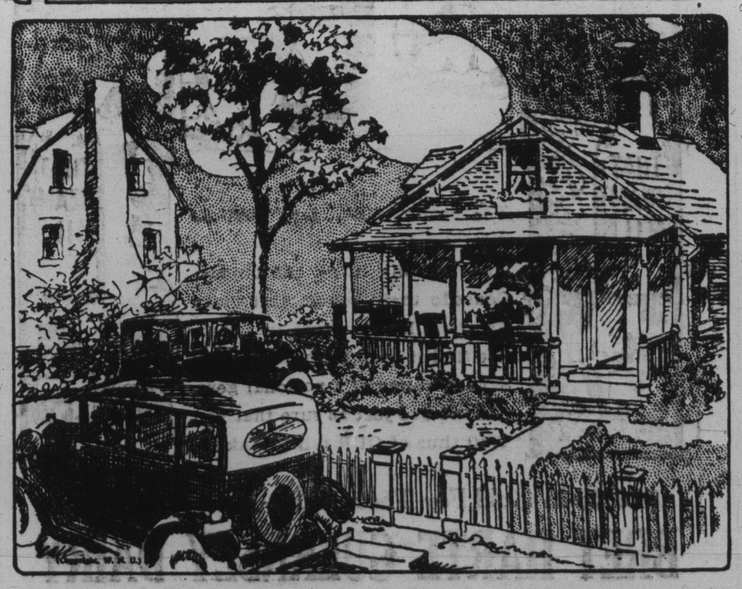
Miling at full capasity continues at both the Idaho-Maryland and Brunswick plants, flotation being under experimentation and installation at the latter plant.

PRESIDENT OF ELKS ASSOCIATION TO VISIT

This evening Nevada City Lodge No. 513, P. B. O. Elks, will unite with Grass Valley Lodge No. 538 in receiveing Harris S. Williamson ,president of the State Elks Association. P. G. Scadden of Nevada City lodge, vice president of the association for California North, will also attend the session in his official capacity.

Previous to the lodge session, Exalted Ruler John J. Fortier of Nevada City lodge and the other officers of the lodge will entertain the visiting grand officer at dinner at the National Hotel. After the lodge meeting a social session will be held.

Mother's Day



IMPORTANT WATER RIGHT SUIT BEING TRIED

A condemnation suit brought by the Pacific Gas and Electric Company against Dr. J. L. Rollins of Colfax is being heard before Judge Landis and a jury at Auburn this week.

The company seeks to condemn a flowage right over the Bear River claim of the defendant for 14,000 inches of water. The Rollins property extends along the bed of the river for about half a mile above the dam which is situated immediately below the Narrow Gauge bridge.

The trial was interrupted yesterday while the jury were taken over the ground.

William Maguire and E. C. Uren of this city are witnesses for the company, both having disposed of rights along the river further upstream.

Kitts and Lowell Brothers are attorneys for Rollins while Eddy, Gedes and Chamberlain represent the plaintiff company. The trial is expected to last for several days.

WILL LEAVE SHORTELY FOR MESSININKI COUNTRY

D. E. Bleakley, well known placer miner, will be leaving shortely for British Columbia where he plans to go for into the unexplored Messininki country which lies some 600 miles north of the railhead at Hazelton and about 1300 miles north of Vancouver.

Mr. Bleaky plans to penetrate the little Known lake county a hundred or miles beyond the end of auto transportation and will select as his base some designated lake where his company will land with supplies by hydroplane at frequent intervals.

His work, which is for a Vancouver Company, will be entirely exploratory and will probably keep him in the far north for many months.

NEVADA CITY MAN HURT AT MAYFLOWER MINE

John Curry of Nevada City was vehy badly injured at the Malflower mine at Forest Hill last Friday and is at the Sutter hospital in Sacramento in a serious condition. Mr. Curry was engaged in bringing out an ore train from the face of the main tunnel and was between the cars when the first one jumped the track. He was caught between the cars and badly crushed in the pelvic region, sustaining a broken pelvis and other internal injures which are of an uncertain nature.

It was but a few weeks ago that Mr. Curry was at the Highland hospital in Auburn with a badly lacerated scalp resulting from a falling iron bar and a short time previously he suffered a broken leg which incapiciated him for some time.

POET LAUREATE WAS NEVADA COUNTY MAN

The death of Henry Meade Bland, poet laureate of this state, brought out the fact that he had received part of his early education at Indian Springs in this county when his father was a minister there.

For many years Dr. Bland has been a professor of literature and was dearly loved by all the students who attended. The kindly old man who loved the beautiful in the written word tried to imbue his pupils with the same appreciation. He was a personal friend of Joaquin Miller and many other Californian poets. Every year in the spring Dr. Bland would take a group of students on a pilgrimage to the Joaquin Miller home.

Dr. Bland's greatest literary success was the "Life of Bret Harte". In compiling this book he had the help of old residents of Neva County and succeeded in establi ing the fact that Bret Hart was one time a substitute teacher in t Indian Spring school. He was al the author of many short poems.

Two years ago the Legislature a pointed Dr. Bland, Poet Laurea for California and he attained a lif time ambition.

Dr. Bland planned to visit thi county this month and renew old ac quaintances.

JAMESS DILLION KILLED ON HIGHWAY MONDAY

James T. Dillon, an old and highly respected resident of this city was struck by a moving van and almost instantly killed about 2:30 p. m. Monday afternoon when he attempted to cross the highway for a drink of water at a point near the Segsworth Bee Farm. According to Traffic fficer Olson, and others who were present, the accident was practically unavoidable and James Nakervis, driver of the death car was held blameless for the accident.

According to Traffic Officer Olson, who witnessed the accident, Dillion, who had stepped across the highway to get a drink of water, was returning to his work on the north side of the highway.

Seeing the Nankervis car approaching, he stopped, evidently with the intention of permitting the driver, who had slowed down as he observed Dillon in the act of crossing, to continue down the road. Nankervis, believing Dillon was going to await for him to proceed, speeded up. Dillon then stepped directly in front of the car, which was not going faster than 20 miles an hour.

Dillon was thrown on his back, his head striking the pavement and resulted in a fracture of the skull, according to Dr. C. P. Jones, who was summoned to the scene of the accident.

The coroner's office at Nevada City was notified and the body was removed to the Holmes Funeral Home. All of the witnesses, fellow employees of Dillon, state that Nankervis is without fault and that he had done everything possible to avoid the accident by slowing down and almost stopping when he noticed Dillon crossing the road.

Coroner A. M. Holmes, Tuesday evening held an inquest to go into the full details of the death of Mr. Dillon which resulted in absorbing the driver of the car from all blame in the matter.

The jury returned a verdict that the "deceased came to his death on May 4, 1931, while in the employ of the California Highway Commission. The cause of his death was fracture of the skull, due to an unavoidable accident, the result of being knocked down on the highway by an automobile driven by James Nankervis of Grass Valley."

The funeral was from St. Canice Catholic Church Wednesday morning, a requiem mass being celebrated by Rev. Father O'Reilly. There were many beautiful floral offerings, tokens of love and sympathy from relatives and friends.

The following acted as pall bearers: Frank Steel, Gomer Hopkins, Benj. Tonella, Fred Carter, George H. Calanan and Harry B. Gray.

LOYALTON EDITOR ARRESTED

M. T. Ayres, editor of the Downieville Messenger, to-day swore to a complaint charging James E. Nugent, editor of the Sierra Valley News of Loyalton, this county, with crimminal libel.

The complaint was filed in the court of Justice Ennis at Sierra City. The warrant was served upon Nugent by Sheriff D. W. Johnson at Loyalton, where he is justice of the peace. He released a hearing in court Monday.

A recent editorial in the Loyalton paper is understood to be cited in the complaint.

The complaint is a counter move by Ares, who on April 27th was arrested on a charge of criminal libel preferred by Nugent, who alleged Ayres' paper had referred to him as a "human skunk."

UNCLE TOM'S DANCES POPULAR

Uncle Tom's Cabin on the Downieville highway is proving a popular spot for the terpsichorean enthusiasts. Last Saturday night a large crowd enjoyed the music which Uncle Tom had provid

CONCENTRATES

If you haven't any place in particular to go these bright spring days just drive over toward San Juan and you will find along the highway, about two miles this side, large areas of Scotch broom which are now in ffull bloom. The masses of bright golden yellow flowers against the green foliage of the hills makes a scene which will not soon be forgotten.

While the flowers of this shrub are quite attractive to the eye, their odor is somewhat nauseating and the stems and leaves are said to be very bitter to the taste. They are sometimes used in the process of dyeing and tanning.

We notice a number of residents within the city who have planted the broom for ornamental purposes. Later on they will regreat having done so as he plant is very thrifty and soon spread so that it becomes very obnoxious. It takes complete possession of areas into which it has been introduced and, once established forms an almost inpenetratable jungle choking out everything else in the line of vegetation.

State horticultural inspectors will not permit its introduction in many localaties as it is regarder as a part.

Of all the creations made to drape the form of the modern young girl nothing is quite so absurd, so ridiculous, so screechingly ugly and unbecoming as the new flapping, so-called pajamas that are now being paraded on the streets.

The low seated billowy and roomy pants that the Chinese laundryman wears while he irons our clothes is a gem of artistic design in comparsion.

Such garments might be worn at home with decorum. They may be more comfortable than a dress to lounge around the house in, but the average young lady who appears on the streets in these bilious colored garmets could overhear a few of the remarks they occasion, she would probably quit wearing them.

Some of them are cut and designed whether the wearer is of the they do not leave much to the imagination, in fact they plainly portray wheather the wearer is of the cracker, biscuit or full loaf type and if the offending male should appear on the streets in one of these rainbow flimsies he would be promptly arrested, as he should be.

Now that the attorney for the Bridgeport bathing pool has transferred his case to the Federal court for a hearing I suppose we shall have a showdown on wheather the Camimetti act means anything or not.

The Federal government has ruled that hydraulic mining may be carried on along tributaries of the navigable streams of this stae as long as debris is held back by suitable barriers.

The Omega mine is operating under government permit and its barrier is inspected regularly by an engineer of the debris commission, as is also the Bullards Bar dam on the North Yuba.

The permit does not require that the water be crystal clear as it leaves the dams because it is an impossibility to prevent a certain percentage of silt, which remains in suspension, from discoloring the water as it leaves the impounding reservoirs.

Presumably the waters of such streams are not ordinarly chosen as a de luxe bathing place because there isn't one of these streams but what has in its waters of all descriptions which enters it from every habitation along any of its tributaries. In other words, the streams are the natural sewers of the territory they traverse and every small village, e ranch and every cabin within the watershed adds its quota of refuse to the streams.

There is, of course, no law prohibiting any person from erecting a manure carrier or seeeting up a Romanian house along any stream. It could be dne on the Sacramento river, below the sewer outflow, and and then complaint entered against the city for contaminating the water. It could be done, on Wolf Creek or Deer Creek, for that matter, and a very logical complaint preferred on account of the polluted water.

Those who choose these natural sewers as sites for sanitary ablutions seek to justify themselves by that well known legal phrases that you can't work one property to the detriment of another.

In the early days of these mining districts the owners of river claims, under such rulings, could have stopped every mine but their owu from working.

But there was a certain fine spirit among the early settlers here in the west. They were, as a class, always helpful to one another and were only tooglad to see each other get along. That spirit, more than anything else, is what helped to make these old camps famous and it still lingers with us as a part of our most cherished possesions.

There seems to be a sort of perpetual open season against the mining operator these days. He is sued because his smelter smoke kills off the farmers trees. He made the goat for the most exhorbitant industrial insurance ever saddled on any industry. He gets more for his product in good times than in poor, and when high wages prevail he is unable to pass the burden on the consumer. He is threatened with extinction because the working of his product contaminates the streams and among those who want to catch a few fish or, worse still, insist on using the streams for a bath tub. And although all the world is crying for gold, about everything possible is being done to further handicap him sometimes even among his own people.

SCOUTMASTER RICKSACKER ILL

Scout Master Ricksacker of Auburn was taken ill while attending a scout meetiing here Wednesday. He was taken to the Jones Memorial Hospital at Grass Valley. He was later removed to his home in Auburn.

REMODELING HOME

R. C. Martens of Berkeley having purchahed several acres of land on Lost Hill, is busy making many improvements by remodeling the home, with all new floors, Schumite Plaster, doors, windows etc. Robert Stedger, local carpenter, is doing the work, and all material is being delivered by the Diamond Match Company.

0

SKATING TO CONTINUE

Reports that the Skating Rink is soon to close are unauthorized and without any foundation in fact. We plan to continue operating the rink for an indefinite time, and will give the public at least two weeks notice before we close.

We appreciate the splendid patronage given us, and will strive in the future, , as in the past, to make the hours you spend with us happy and unmarred by untoward incidents.

MEMORIES OF MOTHER

Mother's Day, May 10th, 1931
By Joe M. Swazey

I am sitting by my window
Listening to the music play,
It reminds me of my Mother
Up in Heaven, far away.

How I long to see you, Mother,
Long to kiss that kindly face,
Oh! There will never be another
Who can ever take your place.

I remember you dear Mother
And in fancy I can see
Your face aglow with happiness
As you bounce me on your knee.

And, when the nights were cold and stormy
And I was tucked in bed and warm
How you'd kneel and ask the angels
To keep your baby safe from harm.

And when you'd crawled in bed beside me
After working hard all day;
You would tell of the angels
Up in Heaven, far away.

I remember that fatal morning
When I woke up, just at dawn;
How I called for you, dear Mother
And they told me, that you'd gone.

They tried their best to cheer me
As the tear drops filled their eyes;
When they said, God had called you
To His home, in Paradise.

I gazed in childish wonder
On your form so cold and still
And, at the large crowd, who had gathered
In that church-yard on the hill.

How I heard the minister speaking
And the organ start to play;
How I heard the choir singing
While they wiped the tears away.

How they let me kiss you, Mother,
Before they sealed your casket tight;
And I couldn't help but wonder
Why you were so cold and white.

So all you children, please take worning
Be you white, or foreign race;
If you have a Mother, help her,
For there's none can take her place.

For she has loved, and helped to raise you,
And though she may look, old and gray;
Try to show her that you love her
On this coming Mother's Day.

CALAVERAS DEV. COMPANY TAKES OVER FORD MINE

SAN ANDREAS, Calif., May 6—Negotations have been completed whereby F. A. Mansfield and J. B. Fergusion, Los Angles real estate and mining men, have taken over from the calaveras Development Company, a Nevada corporation, the operation of the Ford mine, near this town. Joseph E. King, veteran Mother Lode mining man will continue as mine superintendent, with mining engineer, as consulting engineer. Messers. Mansfield and Fergusion became indentified with Mother Lode mining activities less than two months ago and have since been financing the development of the Golden Hill mine, three miles north of San Andreas. It is known that they are contempting the acquisition of additional properties in Calaveras County.

It has been within the last six months that the Ford mine has been reopened and its 750-foot incline shaft dewatered and retimbered. Recent operations have been attended by highly pleasing results, partically on the 100-foot level, on which a drift south on the East vein is exposing two and a half feet of ore assaying $70., a ton in gold, exclusive of specimen rock showing a leberal distribution of free gold visible to the naked eye. Awinze on this showing below the drift has been started. Supt. King reports that the specimen rock is being found in greater quantity as sinking progress.

Thus far the flow of mine water in the Ford shaft has been reopened and its 750-foot incline shaft dewatered and retimbered. Recent operations have been atentded by highly pleasing results, particularly on the 100-foot level, on which a drift south on the East vein is exposing two and a half feet of ore assaying $70., a ton in gold, exclusive of specimen rock showing a leberal distribution of free gold visible to the naked eye. A winze on this showing below the drift has been started. Supt. King reports that the specimen rock is being found in greater quantity as sinking progress.

Thus for flow of mine water in the Ford shaft has been handled by a baler In order to obviate the necehsity of the use of the 75-horsepower electric hoist in operating the bailer and to expedite future development work, the new operators have ordered a 150-gallon per minute electric pump for installation at the 700-300-gallon per minute capacity at foot level station and another of the 400-foot level station, as well as other equipment.

A 150-cubic yard daily capacity washing mill is being installed at the Mohawk placer gravel mine, 12 miles northeast of San Andreas, which is owned and being operated by Mrs. Maude Kramer, in association with Oakland, Calif., business men, under the supervision of her son, Adam Kramer. From the bottom of a 58-foot vertical shaft to bedrock, crosscuts have proved the pay gravel to have a width of 100 feet and an average of ten feet. The gravel being mined ranges in value from $8 to $40 a cubic yard, Mr Kramer states.

FIRST AMERICAN WAR MOTHERS

On Mothers' Day, May 10, The American War Mothers will hold ceremonies at Arlington Amphitheatre, Washington, D. C.., That will be linked with the memory of George Washington through an address to be delivered on "The First American War Mother- Gearge Washington's Mother," by Hon. Sol Bloom, Associate Director of the United States George Washington Bicentennial Commission. Congressman Bloom will dwell upon Mary Ball Washington's great service in the gift of her son to America and to the world, and on the strain on her courage during his dangerious days in battle.

The address will also call upon all the War Mothers, espically, to join their efforts with those of the United States George Washington Bicentennal Commission in its plans for the Celebration of the Two Hundredth Anniversary of the Birth of George Washington in 1932.

The ceremonies arranged by the War Mothers for this occasion at Arlington Mothers' Day will be most solemn and impressive. Most striking of all will be an "Asile of Honor" formed by the Gold Star War Mothers carrying garlands of laurel and white carnations--the carnations serving as the Mothers' smybol, and the laurel as the heroes' emblem. Through this living aisle will pass representatives of 35 potiotic organizations, to place flowers on the Tomb of the Unknown Soldier.

Prominent among these organizatins will be the Virginia State Department of the American Legion, three hundred in number, with their mothers and wives.

The program as arranged includes music by the United States Marine Band, an invocation by Captain Sidney Keys Evans, Chief of Chaplains of the United States Navy; and further addresses by Mrs. Virgi McAmerican War Mothers; by Mothers; by Major General John L. DeWitt, Quartermaster General, United States Army' on "The Mothers' Pilgrimage;" with closing address by the Secretary of War, Patrick Hurley.

Bertha Curtis Johnson will sing a song by Herman Fakler, the words of which were found on the body of a dead soldier on a battelfield in France, Shortly before the Armistic, the title being "Ye That Have Faith" Staff Sergant Frank Witchey, Headquarters troop 3rd United States Cavalry, who sounded Taps at the Burial of the Unknown Soldier at Arlington on the first Armistic Day, November 11, 1921, will sound the same call on this occasion, and the program will be interspersed with other music.

Later, at 4 o'clock on Mothers' Day, the American War Mothers will hold another ceremony at the Lincoln Memoral, when four trees will be planted and dedicated to the four past national presidents of the Association. These are Mrs. Alice M. French, founder of the Association; Mrs. Mabel D. Digney, Mrs Margrett N. McCluer, and Mrs. Mary Spence.

The ritual of the American War Mothers will be used, conducted by the national presidents, Mrs. Virgil McClure, and the addres will be by Gen. Amos A. Fries. Music will be furnished by the 20th Marine Band, and the Junior 20th Marines will form a guard of honor.

While these observanves are being conducted on land, other American Gold star Mothers will be at sea on board the "George Washington," on the first of the second year of pilgrimages authorized by Congress and arranged by the War Department, to enable American women who have lost sons in the World War to visit the graves of their loved ones. On the first of these voyages, and on each succeding voyage, a day will be devoted to honoring the First of all American Soldiers, George Washington, in cooperation with the United States George Washington Bicentennal Commission on its plans for the nation-wide celebration of Washington's Two Hundreath Birth Anniversary next year.

NORTH SAN JUAN ITEMS

Mr. and Mrs. Bob and daughters went on a vacation to Bullards Bar Sunday.

Mr. and Mrs. Washburn left Saturday for a fishing trip to Portolia.

Joe Oliver and mother from Escalon and Miss Maggie Lohman and Mr. Lohman took a trip to Downieville Sunday.

Mr. and Mrs. Blanchard have opened a restaurant in town.

Mr. Tom Curnow was over from Grass Valley Sunday.

Jack Wolf passed through North San Juan Monday.

Mr. Myers of Rio Vista was here on a visit to the Lohmans.

Judge Jones and wife was over from Nevada City yesterday.

Mr. and Mrs. Kinkle was down from Alleghany.

Mrs. John Kelly was a visitor Wednesday from Moonshine.

Mr. Walter Butz was a visitor in San Juan Wednesday.

Mr. and Mrs. Kiken of Downieville passed through San Juan on their way to Sacramento.

NOTICE

From now on the Colfax Bakery will supply their products to the Sacramento Street Grocery, Nevada City, California.

ANGELINI CICOGNI, Prop.

Stomach Troubles Headache and Dizziness

If your stomach is sick, you are sick all over. If you can't digest your food, you lose strength, get nervous and feel as tired when you get up as when you went to bed.

For 10 years Tanlac has restored to health and activity many thousands who suffered just as you do.

Mr. Daniel Vinciguerra, of 6200 Stiles St., Philadelphia, Pa., says: "I have not had a dizzy spell or a headache since taking Tanlac. My nerves are in better shape and I can enjoy a good night's sleep."

Let Tanlac help you too. It corrects the most obstinate digestive troubles—relieves gas, pains in the stomach and bowels, restores appetite, vigor and sound sleep.

Tanlac is made of roots, barks and herbs. Costs less than 2 cents a dose. Get a bottle from your druggist today. Your money back if it doesn't help you.

PROBLEMS CONFRONTING THE COUNTRY AT PRESENT

From a strong article in the current issue of the American Mining Congress Journal, by John E. Edgerton, president if the Nation Association of Manufactures, and entilted brief excerpts are taken:

. . . For 17 months everbody in America has been thinking and talking about what "Andy" ralls the "sitichation." The more we tthought and talked about it, analyzed it, and prognositicated concerning in the worse it became, and very naturaly so, for the energies and time thus employed were drawn from useful channels.

It is unnecessary, however, to go into any detail as to what has happened during this period of economic inclemency further than to consider some of the fundamental causes for the purpose of a rational charting of our future courses. The important question now is whither are we going and not whence we came?

We have been developing physicly so much the faster than we have moraly and mentally, that our avoirdupis has become too great for our neglected social structure, and it simply crashed through. We have thought too much in terms of evtensive as distinguished from intensive development, while our sence of value and of direction became dull and and wrapped. When a man's business grows faster than he does it is doomed to collapse. That is exactly what has hapened in America, and business is now waiting for its managers—the people—to catch up with it in their grouth.

The clear issue before our nation is wheather or not the people will asert and maintain the mastery of the government that was established to be their servant, or wether they will continue to yield to the increasing encroachments of political power upon the domains of private pregogative and initiative. In other words the burning question is, are we not only incapable, but have we the necessary will to govern ourselves. That invisable issue lies beneath nearly all of the major legislative proposals in the United States congress and state legislature.

So I say that the character of our government in all of its units, and the character of its legislative product, is not going to change any faster than the people themselves change. The great job before the intelligence and enlightened conscince of the nation is to see that every citizen has a fair opportunity to earn his economic, as well as spiritual salvation. If he has not the opportunity he ultimately ceases to feet his sence of individual responsebility. . . .

I must therefore, that at the root of every economic and polotical problem we have there is a moral problem which must first be solved. The obgligation of contribution to every problem is in direct and absolute proportion to on individual's opportunities and capacities to make it,

It is time that we were calling a halt in this country upon group, class and sectional intolerance. There is too much of what is vulgarly called "buck pasing" among them all. As long as this spirit continues there can not be and will not be any such thing as stabilization.

The people themselves must be stablized before there is any possibility of stablizing conditions. If, therefore, all who have been busy analyzing conditions and causes, getting up statistics and expresing opinions, would stop long enough, they would find, in my opinion, the roots of the trouble. Individual reform necessarily precedes collective reform, and national improvements can proceed no faster than improvement in the individual parts of the whole ——Mining Review

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

Accept the verdict of your friends about *Electric Refrigeration*

Many of them use it in their home. Hear from them about its many conveniences. Then See Your Dealer About the Kind You Would Like Best.

Money paid for an Electric Refrigerator is not spent, but invested. It begins immediately to come right back to you in savings and in convenience. Ask your friends if this is not so.

Just a small down payment for the refrigerator starts these savings, which help to complete the payments (on easy terms), and soon your refrigerator is not being paid for but is paying you.

It is well worth while to have the health-protection, satisfaction and comfort that an Electric Refrigerator offers.

You may have plenty of ice cubes, frozen salads and desserts and other things quickly and conveniently. Wherever Electric Refrigerators are sold a complete demonstration will be given gladly without obligation on your part.

Get the demonstration now.

RAILS OF '49 COMMITTEE ONDUCTING, AT CAMPAIGN

The hundredth membership in the Trails of '49 Committee which is onducting an advertising campaign o build up tourist travel for the Sacramento Region was presented today to Honorable James Rolph, Jr., Goveruor of California.

Advertising and publicity featuring the twenty-one counties of the Sacramento Region is appearing in Pacific Coast and Eastern population centers Region Citizens Council.

In accepting the hundredth membership, Governor Rolph said:

" If the Sacramento Valley Region is to get its share the three million tourist who will come to the Pacific Coast this year, it must awaken to the value and necessity of an intensive advertising campaign. An opportunity is now offered all Northern California people to get behind such a program by joining the Trails of '49 Committee, which is organized to tell the world about the historic and scenic attractions of the twenty-one counties of Northern California.

"I feel that this program is the most comprehensive yet offered the Sacramento Region and the progress fo the Regin is directly concerned with our ability to sell the many attractions and advantages of this district to the rest of the Pacific Coast and the world at large.

Such advertisements as have already appeared in Pacific Coast newspapers and a continuance of the publicity already begun is bound to result in a large tourist crop for Northern California this year."

The Trails of '49 Committee is holding its next meeting at Marysville on Friday, May 8, in connection with the Marysville Gold Rush Celebration staged for that week-end.

METAL MINE ACCIDENTS REDUCED IN 1930

Better safety conditions at metal mines in the United States during 1930 are reflected in reports for that year which have been received from mining companies by the United States Bureau of Mines, Department of Commerce Scott Turner, director of the Bureau of Mines, states that while some companies have not as yet sent their accident reports to the Bureau of Mines, states that while some companies have not as yet sent their accident reports to have reported to indicate very gratifying progress in accident-prevention work during the past year. A special tabulation of the returns of 1930 which had been recieved by the Bureau up to April 18th, covering 551 identical metal mines that were in operation in both 1929 and 1930, shows a reduction of 17 per cent in the accident rate during the latter year. The rate from 1930 from these companies was 182 accidents for each thousand men employed, while the rate for the same mines in 19 29 was 220 accidents per thousand men employed.

The fatality rate for these companies was 3.08 per thousand employees, the same as in the previous year, but a substantial reduction was efected in the rate for nonfatal injures, the fights having been reduced from 217 per thousand employees in 1929 to 179 in 1930.

According to Mr. Turner the average working period at these mines was 285 days per man as campared with 311 days in the year before. The total number of man-shifts worked by all employees at these mines was 187,00,000, about 19 per cent below the level of the previous year.

The foregoing figures represent companies that employ about 75 per cent of all men that work in the metal mines of the United States. Final and more detailed figures covering the entire metal-mining industry will be published as soon as reports have been received from the new remaining companies that have not yet sent in their returns for 1930 to the bureau.

SHORE MINE MAKING RAPID PROGRESS

JAMESTOWN, Calif., May 6—William C. Reynolds, J. S. Simon and Louis Kline, San Francisco mining men, are making repid progress in the extension of a tunnel on the Shore mine, on the outskirts of Jamestown, a notable producer of high grade "pocket gold" ore from shallow surface operations for many years. The tunnel now measures more than 100 feet in length and conditions prevailing in the face indicate that it should tap within an additional ten feet a vein which on the surface veries in width from six to 15 feet in value from $4 to $10 a ton in gold, it is stated.

RED ANT KNOWN TO BE GREAT FIRE FIGHTER

The little red ant, famous for his industry and infomous because of his intereference with pickners, has now become known as a fire fighter, according to reports from U. S. Forest Service scientists. The red ants have no fire engine or hose but carry a tank load of formic acid which they can learn to use effectively in spraying out a small fire Experiments carried on with burning matches dropped near an ant hill showed that at first the fire caused confusion, but when repeated at daily intervels the ants formed into brigades in solid formation and, what appeared to be a given signal, the entire force that put out the match.

Recognizing the importance of protecting the forest, watersheds and recreational areas of northern California from fire, the Siskiyou County Board of Supervisors passed resolutions on April 6 for the appointment of a committee with authority and funds, as respresntatives of the board to prevent fires, and called on the entire population of the county to do its share. Invitations were sent to neighboring counties urging them to cooperate by carrying on similar fire prevention activity.

That Mexico is starting an eductional fire prevention campaing is evidenced by recent reports to the U. S. Forest Service of panel painting, nine by fifteen feet in size, showing a forest fire in all its destructiveness located in the International Cabaret in Auga Prieta, Sonora, Mexico. Underneath the panel is the warning, "Careless Campers Spoil God's Country."

Over 20,000 acres were planted in the notional frests of the United States in 1930 ,according to a report received by S. B. Show, Regional Forester. The Forest Service expects to plant 25,000 acres this year.

0

DRILLING OPERATIONS BRING GOOD RESULTS

SONARA, Calif., May 6—Having obtained satisfactory results by recent drilling operations and determined the course of the ancient river channel under exploration, Charles Hale and John Anderson, business men of Turlock, Calif., have started sinking a vertical working shaft on the Harvey Pruett and Millard Rowell placer properties, embracing a total of 150 acres, on the south slope of the ridge on which is located the famoue Confidence mine, noted early day gold producer, about 12 miles northeast of Sonora. It is the intention to put the bore down 175 feet, the deepest point at which the bedrock was found by drilling operations, it is learned. The work is being supervised by Harvey Pruett.

Preliminary to the inauguration of milling operations in the new 10-stamp plant on the Longfellow mine at Big Oak Flat, 18 miles southwest of Sonora, J. W. Newell and associates of Los Angles are installing a power pump on the main shaft to obtain an increased supply of water for reduction purposes, it is learned. By means of a tunnel and tributary workings, a series of veins has been opened up and large tonnage of ores made available for treatment, it is stated.

With Carl Amon of Sonora as superintendent, Otis Mining Corporation, Ltd., of which G. M. Otis of Los Angles is president, has started shaft sinking operations on the Grahm placer gravel property near Columbia. The same company is operating the Little Bonanza lode mine within the city limits of oSnora.

Consult your Attorney

Have you made a Will? If not, may we suggest that this obligation to your family is too vital to neglect? The first step is to consult your attorney.

If, however, you have made a Will, review it with your attorney at least once a year, to be certain that it fits your present circumstances.

In making your Will, it is just as prudent to have the guidance of a lawyer as in any other transaction where legal knowledge is required. The Trust Department of this Bank strongly recommends the use of competent legal counsel, retained by you and responsible to you.

You and your attorney are invited to discuss, without obligation, the appointment of Bank of America as Executor and Trustee under your Will.

TELLS OF INTERESTING TRIP THROUGH EUROPE

Miss Martha O'Connor, accompanied by her brother, enjoyed a most wonderful trip to Europe last summer which she is telling to the readers of The Nugget.

JULY 30.

We were now having our second visit in Paris. We did not stay long after eating our breakfast. Next took a train for Cherbourg on coast of France. Arrived about 4:30 p. m. and after a two hours' wait for the tide to come in we boarded the steamer Majestic for U. S. A. We had a very heavy rain storm the first night on board the Majestic, nearly every one was sick or nearly so, for that one night. As for myself, I had been sick all the way over and naturally took it as a matter of course coming back.

We passed many large vessels going toward Europe and several apssed us on our way west.

We arrived in New York harbor about 10 a. m. Tuesday August 5.

By the time the quarantine officers had performed their various duties it was 2 p. m. The sky line view of New York is very picturesque on entering the harbor. The Statue of Liberty was an interesting item, too. At 2:30 p. m. we began to disembark. It took several hours, considering the number of passengers at 1500 and crew of 1100. It was 6 p. m. when we finished with the Custom Officers. We took a ride after dinner up the Hudson and saw many notable things among them Grant's Tomb. The tallest building we saw was the Chrystler. Also saw Pennsylvania Hotel, one of the larger ones of New York and once very noted. Went to 33rd Street Station and took a train for Philadelphia where we were met by our cousins after a ride of about an hour and a half. Stayed there for two days and three nights. The first day we were taken to Valley Forge where we saw quantities of war material used in Colonial days. Also many historical buildings. I gathered and pressed a lot of flowers from this place. Next day went to Atlantic City, whose main attraction is the famous board walk. It is only 50,000 as compared to our Long Beach of 160,000. On the way out we visited Laurel Hill Cemetery, Franklin's grave, Betsy Ross House and Independence Hall, where everything of the Revolutionary period is displayed. Also Wanamaker's store, one of the largest in the United States. Friday morning, Aug. 5, we left Philadelphia for our National Capital. We took a taxi drive around the city and also walked quite a little. Saw all the buildinks of note, and went through the Capitol building and Public Library. Also saw Ford's Theatre where Lincoln was assassinated. Say Arlington cemetery from a distance.

Left Washington by way of Pittsburg at 3:30 p. m. and arrived at Chicago next morning at 10:30 a. m.

Spent a short time there and proceeded west to the state of Iowa. We arrived there the same evening at the town of Keota about 7 p. m. Where met and taken to the home of my sister, Mrs. Crawford where I spent two months. While their I attended the state fair at Des Moines.

I left Keota on the 9th of October and had a veryinteresting trip of five days to Sacramento.

Saw some very beautiful scenery in Utah. The Grand Canyon of the Colorado and the ride of 40 miles across Salt Lake were very thrilling.

After a rest of 5 days in Sacramento, I left for San Francisco.

And here my trip ends,
But I'll never regret
All the trials I met
For I made many wonderful friends.

—0—

FRENCH CORRAL ITEMS

FRENCH CORRAL, May 7.—(Special)—Delightful weather and the temperature of the past few days surely bespeaks summertime. With hopes for frequent rain showers, and part time irrigation, anyway, busy gardeners are at work.

Our good roads bring many visitors. The late road work done by Supervisor Frank will prove a boon to this section, as a ten mile cut-off means a good deal to those whose homes are in the Bay towns and city.

Many old-time residents return to live again for a short time their younger days. The old school house is always an object of keen interest. When a group of old schoolmates get together and recall the many amusing and interesting incidents of those days life's cares and burdens are forogtten in the joy of memories. This reminds us of the well said article in last week's "Concentrates." We heartily agree with the editor, that among our best citizens and successful business men, but few were college boys.

The past week brought many visitors to this section.

Mrs. Margaret Goldthwaite of Camptonville, in company with Mr. and Mrs. J. Hamilton, called on old friends Tuesday. In her childhood days Mrs. Goldthwaite spent much time here with her sister, Mrs. W. G. Fenton, Mrs. Hamilton also spent part of her school days here. Her name was Margaret Burney before her marriage and she lived with her friend Miss Millie Clerkin .

Lloyd Haskett made a trip to Nevada City Thursday.

Mrs. K. Sullivan had business in Nevada City Thursday.

P. Leonard of Nevada City, one of our good Ridge natives, was a Friday visitor. He is agent for the Catholic Extension Magazine. He was accompanied by Mr. Tommeli, who is agent for radios.

Mrs. J. McCullough of San Juan and son, Bill, called on friends in this place Saturday while en route to Chico.

A. Browning and son, Clyde, who are employed at Forest Hill were home for a visit Sunday.

Warren Thomas of Birchville made a business trip to Marysville Saturday.

Mr. and Mrs. Everett Haslett and family of Yuba City visited Dr. Haslett's father, J. R. Haslett of this place Sunday.

Mrs. K. Brayles and daughter of Sacramento visited their old home here Sunday.

Mr Otis Sweetland of Yuba City, visited his mother, G. L. Sweetland Sunday. G. L. Sweetland has been in poor health for past few weeks.

Mr. and Mrs. W. E. Moulton made a hasty trip to Nevada City Sunday, after receiving word that their daughter, Mrs. L. Dudley, was ill.

A game of baseball was played at Sweetland Sunday afternoon. As it was not reported by radio we failed to get returns.

ORE BUYER'S APPLICATION

In compliance with Section 2, Chapter 70, Statutes of 1925, approved April 15, 1925, amended 1927, 1929, the undersigned, whose principal place of business is at North San Juan, California, hereby gives notice that application has been made to the State Mineralogist for a license to carry on, within the State of California for the year ending December 31, 1931, the business of milling, sampling, concentrating, reducing purchasing and receiving for sale ores, concentrates and amalgams bearing gold or silver, gold dust, gold and silver bullion, nuggets and specimens.

Protest may be made by any person to the issuing of such license at the office of the State Mineralogist, Ferry Building, San Francisco.

HENRY W. HUCKINS,
North San Juan,
Nevada County, California.

8, 15, 22.

LEGAL NOTICE.

ORDINANCE NO. 213

AN ORDINANCE CALLING A SPECIAL ELECTION IN THE CITY OF NEVADA TO OBTAIN THE CONSENT OF THE ELECTORS OF SAID CITY TO USE CERTAIN MONEYS TO WIT, THE SUM OR FUND OF TEN THOUSAND DOLLARS, HERETOFORE RAISED BY THE SALE OF BONDS AUTHORIZED AT A SPECIAL ELECTION HELD IN SAIID CITY ON AUGUST 12, 1926, FOR THE ACQUISITION OF LANDS AND THE CONSTRUCTION AND EQUIPMENT OF A PUBLIC SWIMMING POOL AND BATHS THEREON, FOR OTHER MUNICIPAL PURPOSES, TO WIT, TWO THOUSAND DOLLARS OF SAID SUM FOR IMPROVEMENTS IN THE MUNICIPAL WATER SYSTEM, AND EIGHT THOUSAND DOLLARS OF SAID SUM FOR IMPROVEMENTS OF THE PUBLIC STREETS OF SAID CITY.

The City Council of the City of Nevada does hereby ordain as follows:

SECTION 1. WHEREAS, under the provisions of an act of the legislature of the State of California entitled "An act authorizing the incurring of indebtedness by cities, towns and municipal corporations for municipal improvements, and regulating the acquisition, construction or completion thereof", which became a law February 25, 1901, and the several acts amendatory thereof, the qualified electors of the city of Nevada, at a special election called for that purpose and held on the 12th day of August, 1926, did vote upon a proposition duly submitted to them to authorize the incurring by said city of a bonded indebtedness of $10,000.00 for the acquisition of lands and the construction and equipment of a swimming pool and baths thereon, which proposition so voted upon by said electors at said election was duly carried; and

WHEREAS, the trustees of the city of Nevada, after canvassing the returns of said election and declaring that the said proposition had duly carried, did issue and sell said bonds to the highest bidder for cash according to law; and

WHEREAS no part of the moneys derived from the sale of said bonds, to wit, the sum of $10,000.00 has been expended for the purposes for which the same was raised, but the whole thereof is now in the treasury of the city of Nevada; and

WHEREAS, the present council of the city of Nevada deems it impracticable and unwise to expend said sum of any part thereof for the purposes for which it was raised, and by resolution duly adopted at a regular meeting of the council held on April 16, 1931, declared its opinion and judgment so to be; and

WHEREAS, the present council of the city of Nevada, at the same meeting of the council, by a resolution duly adopted, declared that in its judgment it would be practicable, wise and for the best interests of the city of Nevada that said sum be apportioned to and expended in aid of the following funds of the city, to wit, $2,000.00 thereof for the improvement of the municipal water works, and $8,000.00 thereof for improvements of the city streets and highways; and

WHEREAS, at said meeting of the council, a resolution was duly adopted by said council that a special election in the city of Nevada be called by ordinance, and that said election be held on FRIDAY, MAY 29, 1931, for the purpose of obtaining the consent of the people and electors of said city to the expenditure by said council of said sum or fund of $10,000.00 for the following municipal purposes, to wit, $2,000.00 for improvements of the municipal water system, and $8,000.00 for improvements of the streets and highways of the city.

Now, therefore, in consideration of the premises, and in pursuance of the acts, resolutions and proceedings aforesaid, and of the statutes in such cases made and provided, a special election is hereby called and ordered to be held and conducted in and for the city of Nevada, state of California, at the time and in the manner hereinafter fixed and prescribed, at which special election there shall be submitted to the qualified electors of said city of Nevada to be voted upon at said special election as hereinafter provided, the proposition of using said sum or fund of $10,000.00, so raised by the sale of bonds of said city, for the acquisition of lands and the construction and equipment of a swimming pool and baths thereon, for other municipal purposes.

SECTION 2. That the expenditure of said sum or fund of $10,000.00 so raised by the sale of bonds, for the purposes for which said bonds were voted is impracticable and unwise.

SECTION 3. That the new objects or purposes for which the said fund and money are proposed to be expended are as follows: $2,000.00 therof for the improvement of the municipal water works, and the remainder, to wit, $8,000.00 for the improvements of the city streets and highways.

SECTION 4. The special election hereby called as aforesaid shall be held on FRIDAY the 29th day of MAY, 1931, and shall be held and conducted, the votes thereat received and canvassed, returns thereof, made and the result thereof ascertained and determined as herein provided, and where not provided herein, then as provided by law for holding such municipal elections in the city of Nevada. No person shall be entitled to vote at said election unless he shall be a qualified elector of the county of Nevada, enrolled upon the great register thereof, and shall have resided in the city of Nevada for at least thirty days next preceding such election.

There will be but one voting precinct for the purpose of holding said special election, consisting of a consolidation of the four regular election precincts established for holding state and county elections, as follows: Consolidated voting precinct "A," comprising state and county precincts numbers, one, two, three and four of said city of Nevada, and the polling place shall be at the City Hall, on Broad street in said city of Nevada, Nevada County, California. The polls will be open at eight o'clock a. m. of the day of election. and will be kept open until six o'clock p. m. of the same day.

The ballots which shall be used at the said special election shall be of the same character and form as those ballots used at other municipal elections in said city of Nevada, except as otherwise herein provided. Each of the ballots shall have printed thereon the following heading, to wit: "Municipal Ticket, City of Nevada, State of California. Special Election, Friday, May 29, 1931," underneath which, in addition to the other matters required by law, shall be printed the number of the precinct in which the ballot is to be voted, which in this case will be Consolidated Voting Precinct "A," and underneath the latter shall be printed "Instructions to Voters: —To vote on any question, proposition or constitutional amendment, stamp a cross (X) in the voting square after the word "Yes" or after the word "No." All marks except the cross (X) are forbidden. All distinguishing marks or erasures are forbidden and make the ballot void. If you wrongfully stamp, tear or deface this ballot, return it to the inspector of election and obtain another." Next underneath this, under the heading "Proposition submitted to Vote of Electors," shall be printed the proposition to be voted upon at said special election to wit, the proposition of granting to the city council the consent of the electors and people of the city of Nevada to use the sum or fund of $10,000.00, heretofore raised by the sale of bonds, for the acquisition of lands and the construction and equipment of a swimming pool and baths thereon, for other municipal purposes, to wit: $2,000.00 thereof for the improvement of the municipal water works, and the remainder, $8,000.00, for the improvement of the streets and highways of said city.

Underneath this and separated therefrom by a heavy line and an appreciable space, shall be printed the following: "For granting to the city council the consent of the people of the city of Nevada to use the sum or fund of $10,000.00 heretofore realized from the sale of bonds issued to raise money for the acquisition of lands and the construction and equipment of a swimming pool and baths thereon, for municipal purposes other than those for which said bonds were voted, namely, to use $2,000.00 of said sum or fund for the improvement of the municipal water works, and the remainder thereof, to wit, $8,000.00 for the improvements of the streets and highways of said city," to the right of which shall be printed in one square word "Yes," with a blank square to the right thereof; and immediately below the same shall be printed the following: "For granting to the city council the conscent of the people of the city of Nevada to use the sum or fund of $10,000.00 heretofore realized from the sale of bonds issued to raise money for the acquisition of lands and the construction and equipment of a swimming pool and baths thereon, for municipal purposes other than those for which said bonds were voted, namely, to use $2,000.00 of said sum or fund for the improvement of the municipal water works, and the remainder thereof, $8,000.00 for the improvements of the streets and highways of said city," to the right of which shall be printed in one square the word "No," with a blank square to the right thereof. As to the proposition submitted, every voter desiring to vote may express his will or choice by stamping a cross (X) in the blank square to the right of the word "Yes" or "No."

The election precincts which are consolidated for the purposes of this election, and the numbers and boundaries thereof, are the same heretofore established, created and designated by the board of trustees (now termed the city council) of said city of Nevada, and now existing therein.

SECTION 5. The place of election shall be the City Hall, situate on Broad Street, Nevada City, California. The officers who shall conduct said special election shall be:

Inspector, Annie Byrne.

Judges, Annie Hooper and Clara Philips.

Clerks, Maggie Mahar, W. V. Tamblyn and Joseph Stenger.

SECTION: 6. As soon as the polls are closed in said consolidated voting precinct "A," the proper election officers of said precinct shall canvass the votes cast at said election in said consolidated voting precinct for and against the proposition so submitted to the electors of said city of Nevada as nearly as practicable in the manner provided by law for canvassing votes for municipal officers at elections held in said city. The returns for the said consolidated voting precinct shall be made out and signed in the usual form by the officers of election of said precinct, and shall be forthwith deposited with the city clerk of said city of Nevada, together with the ballots cast at said special election in said consolidated voting precinct. The city council of said city shall, as soon as the returns and ballots of said consolidated voting precinct have been deposited with said city clerk, canvass the said returns in the manner provided by law for canvassing returns of election of municipal officers of said city. If upon the canvass of said returns it shall be ascertained and determined that at least two-thirds of all the electors voting at said special election have voted in favor of the aforesaid proposition so submitted to them of granting to the city council consent to use said sum or fund of $10,000.00, heretofore realized from the sale of bonds issued for the acquisition of lands and the construction and equipment of a swimming pool and baths thereon, for other municipal purposes, to wit, $2,000.00 thereof for the improvement of the municipal water works, and the remainder, $8,000.00, for the improvement of the streets and highways of the city, then the city counuil shall cause an entry of such fact to be made in its official records, and thereafter said council may use said sum or fund of $10,000.00 in the manner prescribed by law for the purposes and in the proportions as set forth in the proposition submitted to the electors of said city of Nevada at the proposed special election hereby called.

SECTION 7. Immediately upon the passage of this ordinance, and its approval by the mayor, who is the president of the city council, of the city of Nevada, the said ordinance is hereby ordered and directed to be, and shall be, published at least once in NEVADA CITY NUGGET, a newspaper of general circulation, printed and published once a week in said city of of Nevada, Nevada County, California.

The foregoing ordinance was enacted and the foregoing electiton call adopted by the city council of the city of Nevada at a regular meeting held this 7th day of MAY, 1931, which day is more than five days after the day of its introduction, and the same was passed by the following vote:

Ayes: Councilmen Seaman, Murchie, Worth, Armstrong and Bennets.

Nays: Councilman—None.

Absent: Councilman—None.

R. J. BENNETTS,
Mayor and President of the City Council of the City of Nevada.

Attest: GEO. H. CALANAN.
City Clerk.

(SEAL)

Approved: R. J. BENNETTS,
Mayor and President of the City Council of the City of Nevada.

ATTENDS GOLDEN WEDDING AT CHICO

U. N. Johnson of this city attended the golden wedding of his aunt and uncle at Chico last Saturday. Mr. Johnson reports a most enjoyable time. This was the first time he had seen some of his cousins in many years. He was accompanied by Mrs. Jhnson.

The following is a writeup of the affair which appeared in the Sacramento Bee:

Mr. and Mrs. C.E. Deering celebrated their golden wedding at the First Methodist church on Saturday where many friends assembled to congratulate them. There were forty-three guests at dinner. The guests of honor were seated under a beautiful golden bell from which were suspended golden ribbons on the end of which were green rose leaves.

At each plate were doilies of gold with gold nut cups, and little candles wrapped in gold paper. Golden horseshoes were the table decorations and song sheets placed at each plate were wrapped in gold bands.

Grandchildren Entertain

Dorothy Deering played the wedding march, and the special song composed for the occasion was sung by Joyce Whitmoyer and Donald King, all three being grandchildren of the couple. Mrs. Deering and her husband were showered with gifts.

Four guests who attended the wedding fifty years ago were present, Mrs. Hattie Deering of Ukiah, Mrs. J. O. Johnson of Hamilton City, Mrs. Deering's sister, Martin Reed of Cloverdale, Mrs. Deering's brother, and Mrs. C. E. Burmeister of Santa Rosa.

Other guests were: The couple's

HOME BEING BUILT BRET HARTE PARK

Bret Harte Park formally known as the Elks Sportsmen and Fishing grounds, 5 miles east of Grass Valley, is now beginning to show itself. Several small cabins have been erected by Elk members purchasing membership.

Mr. Mason, Oakland Editor of the Examiner, has the outstanding home on these grounds to date, built on a side hill amongst the beautiful pines, a two story structure, roof of Hexagonal composite, shingles colored green, outside walls of cedar bark slabs, large fire place built of granite rock, large veranda on second story.

Contractors Richarson & Anlerson erected the building, and The Diamond Match Company supplied all necessary building material.

—0—

LOCAL UNDERTAKER ELECTED PRESIDENT OF ASSOCIATION

A. M. Holmes of Holmes Funeral Home was elected as the first President of the newly formed Northern California Funeral Directors Association at a meeting held at Sacramento on Monday.

Thirty firms were represented at the initial meeting. It is planned to hold the next meeting in Nevada City in July.

It is no new thing for Andy to be elected to an office. He has held offices in various civic organizations of this city, and was City Mayor at one time.

MAMMOTH DANCE HALL BEING BUILT NEAR G. V.

A mammoth dance hall is being built three miles south of Grass Valley on the Auburn highway by Wm. LeDuc and Charles Morandi. The entire floor space is 60 X 104 in addition to the kitchen and dining space.

The roof is of the dome type covered with certainteed mineral surfaced roofing in colors of green and tile.

The orchestra platform will be finished in harmonizing colors brilliantly lighted with many colored electric lights. No doubt this will be the most outstanding dance hall in this region. The location is ideal—driveways in all directions with immense parking space, the back grounds of pine forest and natural growth add to the beauty of the location.

The Diamond Match Company have enjoyed the pleasure of supplying all the material which requires 60,000 feet of lumber of the best quality.

Get in the contest for the most suitable name for this hall, by mailing in your suggestion to Mrs. Wm. LeDuc. The cash prizes will be awarded on the following night of the opening May 16th.

DRYTOWN MINE CO. TO INSTALL POWER PUMP

SUTTER CREEK. Calif., May9—The Drytown Mining Company, headed by Walter Lucot, a merchant of Sntter Creek, is installing a power pump on its property, 5 miles north of hereof here, to unwater the main 485-foot incline shaft preliminary to the inaugration of development work. On the 250-foot level, which was run by previous operators, the vein traversing the property veries in width from six to eight and in value from $10 to $20 a ton in gold, it is stated.

On the Tripp property, adjoining the Drytown estate on the east, Joe Lawrence and associates are sinking an incline shaft on the same vein. At a depth of 40 feet, this working shows an 11-foot orebody with values ranging around $50 a ton in gold, it is learned.

CAMPTONVILLE PIONEER PASSES AWAY SATURDAY

Peter Peterson, a native and pioneer resident of Camptonville died from heart trouble at his home on Upper Main street Saturday morning, following an illness of quite some time.

"Pete" has been a familiar figure in the life of the Camptonville district for the past sixty years, a friend of young and old alike, a congenial nature, liked and respected by all who knew him. For many years he owned and operated the Camptonville Meat arket.

He was 66 years of age at his death. Funeral services were held Monday afternoon from the Masonic Hall ,Rev. H. H. Buckner of Nevada City, officiating. Sacred numbers being rendered by Acton M. Cleveland. Interment was in the family plot in the Camptonville cemetery.

—0—

Mr. and Mrs. L. M. Day and Mr. Smith made a pleasureable trip last Sunday to Lake Tahoe. They drove the entire way around the lake and returned the same day. They left at 3 a. m. and returned at 10:30 p. m. tired but very much satisfied with the fine trip .They reported the road in excellent condition.
